--	--

How does this help?

Keeps users updated on the latest rates and compliance for the USPS carrier.

Updates made to Postage Statements for USPS

Target Group: End Users e2open Internal Users (Solution Consultants, Professional Services, CSM/CSE/GS, Sales, Product Marketing)	
User Experience Changes	
Current USPS Postage Statement forms meet July 2023 requirements.	New The following USPS Postage Statement forms have been updated to meet the January 21, 2024, requirements: <ul style="list-style-type: none">•<ul style="list-style-type: none">○ PS Form 3600-FCM○ PS Form 3600-PM○ PS Form 3605-R

Starting Apr 1, 2024 USPS is discontinuing Hardcopy of postage statements. This impacts customers who uses USPS Manifest mailing option in TM-Parcel application. We recommend customers migrating to USPS eVS transmission option to prevent any interruption.

How does this help?

Keeps users updated on the latest rates and compliance for the USPS carrier.

Parcel Select Lightweight service support for USPS has been eliminated

Target Group: End Users e2open Internal Users (Solution Consultants, Professional Services, CSM/CSE/GS, Sales, Product Marketing)
User Experience Changes

Current USPS supports Parcel Select Lightweight service.	New <ul style="list-style-type: none">USPS no longer supports Parcel Select Lightweight, effective from January 21, 2024.If a user attempts to ship using Parcel Select Lightweight services, the system generates the following alert:<div>Starting January 21, 2024, Parcel Select Lightweight is not available for shipping and is replaced with Parcel Select Service</div>
--	--

How does this help?

Keeps users updated on the latest rates and compliance for the USPS carrier.

--	---

How does this feature help?

Keeps users updated on the latest rates and compliance for the UPS carrier.

SurePost Compliance changes

Target Group: End Users e2open Internal Users Solution Consultants Professional Services CSM/CSE/GS Sales Product Marketing	
User Experience Changes:	
Current <ul style="list-style-type: none"> Non machinable accessorial Charge (NMC) fee is applicable. Non-Standard Length' rules: The Non-Standard Length charge will be applicable for any package with longest side measuring more than 22 inches and not exceeding 27 inches. 	New <ul style="list-style-type: none"> UPS SurePost no longer charges a SurePost Non machinable accessorial Charge (NMC) fee. Non-Standard Length' rules: The Non-Standard Length charge will be applicable for any package with longest side measuring more than 22 inches and not exceeding 30 inches.

How does this feature help?

Helps users stay updated on the latest compliance for the UPS SurePost carrier

Password enhancements for improved data security

Target Group: End Users e2open Internal Users (Solution Consultants, Professional Services, CSM/CSE/GS, Sales, Product Marketing)	
User Experience Changes	
Current Admin users cannot configure: <ul style="list-style-type: none"> <ul style="list-style-type: none"> Minimum Password Age. This allows users to change the password without any restriction. Password expiry date increasing the risk of passwords getting compromised. 	New Admin users can: <ul style="list-style-type: none"> <ul style="list-style-type: none"> Set up the Minimum Password Age field. This restricts the users from changing the password until the specified number of days has passed. Set up the password expiry date. The password expires after the configured number of days.
The system automatically unlocks the account after 30 minutes of five (configurable) unsuccessful password submissions.	After five (configurable) unsuccessful password attempts, the system locks the account until an administrator unlocks it. <div style="background-color: #fff9c4; padding: 5px; margin-top: 5px;"> This is an optional feature that can be enabled on the settings. </div>
System allows users to input the username credentials as their password.	Password cannot be the same as the username. A validation is now in place to not allow the username as password.

How does this feature help?

- Provides enhanced security.

- Prevents unauthorized access to your account.

Add Economic Operators' Registration & Identification (EORI) number to meet new compliance rules

Target Group: End Users e2open Internal Users (Solution Consultants, Professional Services, CSM/CSE/GS, Sales, Product Marketing)	
User Experience Changes: Warehousing Shipping screen > Government ID > Registration Number Type	
Context: The new tax id regulation mandates to provide the Economic Operators' Registration & Identification (EORI) number of the consignee/ Recipient for international shipments.	
Current When users create shipments, they do not have an option to add their Economic Operators' Registration & Identification (EORI) number.	New Users can select Economic Operators' Registration & Identification (EORI) from the Registration Number Type dropdown and providing the EORI number in the Registration Number field when creating a shipment.

How does this feature help?

Ensures shipments are properly documented and processed accurately.

Carrier Data File Updates

Target Group: End Users e2open Internal Users Solution Consultants Professional Services CSM/CSE/GS Sales Product Marketing	
User Experience Changes:	
Current Supports UPS Routing Code data version 38.5v.	New <ul style="list-style-type: none"> • Supports the latest UPS Routing Code data version 2.5v. • The Address Validation file has been updated with January 2024 data for Canada. • The latest National Zone Charts Matrix File has been updated for USPS carrier, effective from February 2024.

How does this feature help?

Ensures that all the carrier routing codes and data files are up to date.

Browser Support
